8/4/98 # 25.1.5-131.

Subdirectors of TU FAS
of technical exploitation
and repair of AT,
Directors of ARZ

On the grounds of the report from Zhukovsky Air-Military Engineering Academy if 1/29/98 on the results of durability characteristics test of polyester foil «EASYPLOT» produced by LANITZ-PRENA FOLIEN FACTORY GmbH (Germany), the act of exploitation test of GUP «PILOTAGE-INVESTIGATING CENTER» OF LII OF 2/2/98 on the results of fastening durability of polyester «EASYPLOT» test and the conclusion of NII ERAT MO RF of 7/6/98 #4/40/903 about the possibility of «EASYPLOT» (polyester foil produced by LANITZ-PRENA FOLIEN FACTORY GmbH) application for the drawing of identifying signs and logotypes on the outside surface of flying apparatuses I SUGGEST:

1. to recommend polyester foil «EASYPLOT» produced by LANITZ-PRENA FOLIEN FACTORY GmbH (Germany) for drawing of identifying signs, logotypes, inscriptions on the outside surface of air vessels of Civil Aviation;
2. to realize the drawing of «EASYPLOT» and its exploitation according to existing standards and recommendations, which are stated in the technical documentation of the foil's mounting on the working surface;

to GOSNII to provide methodical accompany of application and drawing of «EASYPLOT» on the GA air vessels' surfaces and the control over the foil's indication during its exploitation.

G.N.Gipich,
UPLG GVS Chairman
