Subject: Transport Canada Acceptance of EASA STC 10050167, Application of Oratex
covering and coating system for sailplanes and powered sailplanes

This is in response to a letter from EASA dated 19 June 2015 requesting Transport Canada validation of EASA STC 10050167.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issuance of a corresponding certificate by Transport Canada. STC 10050167 meets these criteria.

This STC will be entered in the national index of STCs that have been familiarized or accepted by Transport Canada for installation on Canadian registered aeronautical products.

This letter confirms formal acceptance of STC 10050167 by Transport Canada.

Neil Smith, P.Eng.
Aircraft Certification Engineer
Prairie and Northern Region (Winnipeg)

Cc: EASA, Mr. Joerg Marquardsen
